

Mom's Best Award Product Submission Terms

Product Submission Terms and Conditions:

It is our policy to provide the highest quality of unbiased evaluation of products/services submitted to us for review under the following conditions:

We utilize our editorial staff , and pool of experts (consumers, parents, grandparents, professional developmental psychologists, etc) for unbiased hands-on evaluation of products. Your product(s) will be sent to three separate evaluators, who each fill out an extensive Q & A on each product, with questions and factors related specifically to the category of your product(s), with specific numeric value assigned to each question. Upon completion, each evaluator submits their respective evaluations, and their totals are combined and averaged. If a product averages 85% or better it is deemed to be an award-winner.

Any product(s) requiring safety certification must have the proper certification.

By signing the Evaluation Feedback Form, evaluators agree to allow us to use quotations from any hands-on evaluation participant in our reviews with a condition of no full name or private information used without consent.

All companies submitting products will receive feedback as to the final comments from evaluators, as well as the answer to the one question the submitter has posed.

Mom's Best Award Seal is trademarked and copyrighted, and its use is permitted only through a separate licensing agreement. Any unauthorized use is not permitted, and will be dealt with to the full extent of the law.

We do NOT evaluate prototype products.

All companies must provide 4 samples of the product for evaluation purposes. We do NOT return products which are submitted. Products are disposed at the discretion of Mom's Best Award.

By submitting the form I understand and agree to the above terms
